Admission tickets and reserved seats will be on sale circus day at the UTAHNA DRUG CO., at exactly the same prices charged at the circus ticket wagons.

RETURN FROM A SAD MISSION

Mr. and Mrs. Fred C. Smith returned yesterday from Washington, D. C., where they were called three weeks ago to the bedside of Mr. Smith's father, who passed into the great beyond Wednesday evening, July 27.

Mr. Smith was a familiar figure in our city for many years. At one time he and both his sons were in the employ of the Southern Pacific with which company his son, Fred, still remains as assistant superintendent.

While Mr. Smith's many friends here in Ogden are glad to know that he looked forward to his death as only the promotion, they sympathize deeply with the loving wife and sons who mourn his loss.

MRS. PEARSON ASKS SEPARATION

After a married life of twenty-five years, with its cares and joys, its triumphs and humdrums, William H. Pearson of this city abandoned his wife and for the past year has failed to supply her with the common necessities of life.

This is the plea of Mrs. Katherine Pearson, who has filed papers in the District court asking for legal separation from the man she married in La Crosse, Wis., July 31, 1884.

The wife charges that Pearson willfully deserted her a little more than one year ago and has since refused to live with her or to tend her any financial assistance. She asks besides the divorce that the husband be made to pay the court costs.

A PRINCE IS HELD IN JAIL

Prince Sahi N. Buchakli, comedian, Hindoo fakir from East India, and manager for the Oriental Stock company, is in the Ogden jail awaiting the pleasure of the Montello, Nevada, officers.

The prince was arrested in Salt Lake Friday and brought to the Ogden jail yesterday where he is held until the Nevada officers come for him. It is stated that the Hindoo is accused of stealing a camera at Montello, the charges against him being preferred by Special Officer H. R. Corbin of the Southern Pacific company.

Prince Buchakli is rather a princely looking fellow, but he will have nothing to say to anybody regarding his trouble. As a matter of fact, it is with great difficulty that he makes himself understood to English speaking people. He is quite business-like, carrying his head high which contains a half-toned out of himself.

FEELING IN EVANSTON IS INTENSE

The remains of William Lloyd, the traveling watchman of the Union Pacific railroad, who was murdered on Thursday night at Evanston, were shipped Friday afternoon to Davenport, Iowa. Mrs. Lloyd, wife of the murdered man, accompanied the body of her husband east. Lloyd was formerly a resident of Davenport, and his mother still resides in that city. The funeral will be held from the mother's home.

Joe Seng, the discharged employee who shot Lloyd, waived his preliminary hearing Friday afternoon and is being held over to the district court to answer to the charge of murder.

Seng remains reticent concerning his crime, and has refused to make any statement tending to justify the cold-blooded murder of the traveling watchman. The feeling against Seng in Evanston is very bitter, but it is thought that all danger of mob violence is passed.

PLAIN CITY NEWS

The Plain City cannery is being overhauled and put in shape for this season's run. Last year the cannery was partly dismantled and its machinery used in other factories. All the old machinery is being reassembled and again set up at the original plant.

Much of the material for the canning campaign is arriving at the plant, the material including a car of coal and also a car of box timber. Several cars of cans have been ordered and are expected to arrive within the next ten days.

About seventy-five acres of tomatoes are being grown for the use of the factory, and the crop is in a promising condition. The tomatoes are expected to ripen about two weeks earlier this year than usual. While in normal seasons few tomatoes are canned in August, this year will see many canneries in full blast a week before this end.

MONUMENT TO A FAITHFUL CAT

New York, Aug. 6.—A granite headstone has been erected on Halsey street, Brooklyn, in memory of Tabby, a cat which, five years ago, according to the inscription, saved the lives of Melville W. Smith, a newspaper editor, his wife and three little children. Tabby, on a winter night in 1905, discovered a fire in the kitchen of the Smith home and ran upstairs to the bedroom of Mr. Smith. Leaping on the bed, the cat patted the covers and cooed so lustily that Mr. Smith was awakened. By that time the house had filled with smoke and the five occupants barely escaped with their lives.

WORLDS ARE DESTROYED

Vallejo, Cal., August 6.—Announcement is made by Professor T. J. See, United States navy, the noted astronomer in charge of the naval observatory at Mare Island, that he has succeeded in establishing the general cause of variable stars. For the past two years Professor See has been connected with extensive researches in comical evolution, which have given an entirely new aspect to the nebular hypothesis, and have become the subject of the name of the "capture theory."

The main cause given to explain the round form of planetary orbits and other heavenly motions is a resisting medium of nebulous material which is shown to be diffused everywhere in space.

Within the fifteen years many hundred variable stars have been discovered in star clusters, especially at the Harvard observatory by Pickering and Halley, some of those having been critically studied by Barnard of the Yerkes observatory at Chicago.

It is shown that the variation found to be as regular as the motion of a perfect clock, so that fluctuation of light of these variables could be used to measure time almost as accurately as the rotation of the earth about its axis.

In certain clusters, the variables are to be counted by the hundred, in others very few can be found. Here, too, the fact has been very perplexing to astronomers. After careful investigations, Professor See finds that the cluster variables are suns attended by planets which revolve in short periods and that, after passing through perihelion, they plunge into a resisting medium of nebulousity so that the light suddenly blazes up and afterwards dies gradually. Some clusters are full of nebulousity, while others are quite free from it and, according to Professor See, this accounts for the abundance of variables in certain clusters and their almost total absence in others.

Professor See says he has established also that the blazing forth of new stars now and then in the heavens is caused by the actual collisions of planets revolving about them. The fixed stars generally are now proved to be attended by systems of planets similar to those which revolve about the sun.

Professor See asserts that any star, such as our sun, will have, in the long run, a collision of once in a hundred billion years. The great length of time between the collisions shows that in general such catastrophes do not affect the safety of the universe.

KNIGHTS WILL CAPTURE CHICAGO

Chicago, Aug. 6.—With the arrival in Chicago of Acting Right Eminent Grand Master W. B. Melish of Cincinnati, chief of the Knights Templars in the United States, the work of preparation for the memorial convocation drew to a close.

The band of English Knights who are journeying to Chicago for the convocation are expected to arrive today.

The Right Honorable Earl of Euston, pro-grand master and representing the Duke of Connaught, grand master of the convocation, will be at their head. With him will be Lord Thunley, provincial prior of Middlesex.

The real work of the convocation was begun when the committee began an important revision of the constitution and code of statutes governing the Knights in the United States. The committee is composed of R. J. Whit, Henderson, Ky., chairman, and Caleb Saunders, Lawrence, Mass.; George McGown, Palmyra, N. Y.; L. P. Newby, Knightstown, Ind., and Frederick Speed, Vicksburg, Miss.

While the convocation of the Knights does not officially begin until next week, the curtain was raised on the stage setting today. Bunting, flags, insignia, festoons of myrtle, electrically lighted and high classic columns of white, line the main business streets in profusion.

Those in charge predict that the convocation will bring to Chicago 500,000 people, and that the three of the friends. Delegations will be present from England, Ireland, Scotland and Canada.

MYSTERY TO A CHICAGO CRIME

Chicago, Aug. 6.—No tangible clue had been discovered today by the police tending to identify the man who last night met Dr. W. F. Michells, dentist, and shot him down a short distance from his home. Neighbors have told conflicting stories of seeing one man talking to the doctor just before the shooting and of seeing two men running away afterward.

A well dressed woman, all agree, had visited the dentist's office a few minutes before. Her identity is being sought. A gold watch and \$180 were found on the body.

When a woman has to chop the wood, she doesn't mind the physical effort so much as she minds the hurt to her feelings.

CHOLERA IS SPREADING

St. Petersburg, Aug. 6.—Russia's scourge, the cholera, continues to spread with alarming rapidity, particularly in the southern mining districts and in St. Petersburg, where the conditions are fast approaching the proportions of the great epidemic of 1908.

Figures furnished today by the central sanitary bureau show that in the week, from July 24 to July 30 there were 15,244 cases of cholera and 6,244 deaths.

Of these 4,780 cases, 2,333 deaths were reported from the province of Yekaterinograd and the territory of the Don Cossacks in South Russia. A report from the United Mine Workers association covering forty-eight mines and four foundries gives 2,970 cases and 1,250 deaths. The extent of the panic among the miners is shown by figures furnished from eighteen mines, from which 18,000 of the 46,000 employees have fled.

In answer to the appeal of the association for special measures to check the epidemic and stem the panic, which threatens to stop the production of coal and iron in south Russia, the government today decided to send to the mining region a special commission to study the situation and empowered to organize sanitary preventive work. The provincial assembly today assigned 200,000 for the cause. The desertion of workers by the laborers extends also to the railroad employees. Crops throughout are at a standstill.

The epidemic continues to make enormous progress in the capital, where the daily average of cases jumped last week to thirty. Yesterday 182 cases or suspected cases were taken to the hospitals and there were three deaths. The hospitals now contain 352 persons.

The outbreak of bubonic plague at Odessa is not spreading. It is not worthy fact that the cases of the plague were first reported from a body in the same house in which the epidemic started in 1902. Odessa has been afflicted with a scourge of rats since May and the ineffective measures taken to kill off rats by the authorities are blamed for the outbreak.

SALT LAKE CONVENTION

Governor Norris of Montana, Governor Brooks of Wyoming, and Governor Spry of Utah have written to Governor M. E. Hay, endorsing his plan for holding a conference at Salt Lake City to discuss conservation and to consider means to keep the control of the water power and other natural resources in the hands of the state governments instead of allowing the national government to assume charge.

Governor Gillett of California has written a non-committal letter in reply to Governor Hay's suggestion. Governor Brooks suggested that the conference be held in Denver and that the executives of all the states west of the Mississippi river be invited to attend. This suggestion is being considered.

FAKE PICTURES CAUSE TROUBLE

Gary, Ind., Aug. 6.—An attempt by the manager of a Gary theater to palm off fake pictures of the Jeffries-Johnson fight, resulted last night in riotous scenes that required the calling out of the entire police force.

Bills announcing the reproduction of the Reno contest were plastered all over town. When the fight pictures were thrown upon the screen, they depicted a contest between two spectators. The fighters representing Jeffries and Johnson were what are known in sporting vernacular as a "couple of shins." They fought fourteen rounds, but despite the threat of the crowd to tear down the theater unless their money be refunded. Then the crowd became so violent that the whole police force had to use clubs to disperse the rioters.

KING ALFONSO ESCAPES INJURY

Cowles, Isle of Wight, Aug. 6.—Sir Thomas Lipton's yacht Shamrock, on which was King Alfonso of Spain, a guest of the owner, lost its topmast today while a stiff breeze was blowing and a heavy rain falling. No one was injured.

Ill-luck for the second time follows Sir Thomas Lipton, in entertaining royal guests on his racing yacht, King Edward having been a guest on Shamrock II when the challenger for the America's cup was dismantled and wrecked by a sudden squall on the Solent, May 22, 1909.

King Edward had a marvelous escape from injury when the topmast and then the heavy steel mast gave way, the wreckage coming down all over the deck. A heavy block fell between Lady Dondoderry and Mrs. W. G. Jamieson, and a wire rope struck the owner on the head, momentarily stunning him. King Edward, who had started to go below, was in and out of the companionway, and when the owner and the crew of the yacht recovered from their consternation, his majesty was seen climbing over the wreckage, trying to ascertain whether any one was injured.

EXAMINER CLASS ADS ARE "THE ADS THAT BRING RESULTS."

Locally, in the vernacular, or seriously, there's "class" to these little ads.

METHODISTS OF UTAH TO MEET

The annual meeting of the Utah mission of the Methodist Episcopal church will be held in Provo, beginning the morning of Thursday, August 18th. Bishop W. A. Quayle will preside. He is known as one of the greatest preachers among the bishops, a company of trained men, who are chosen for life from among the other ministers.

Bishop Quayle is a writer of a number of books all of which have had a wide circulation. He will give his lecture on "The Tragedy of Shakespeare's Greatness" on Saturday night and will preach Sunday morning and evening. For all of these, the opera house has been secured. The other sessions will be held in the Methodist church.

In addition others will be present from outside of the state. Among these are Dr. H. J. Coker who represents the Board of Home Missions and Church Extension, and Dr. S. H. Kirkbride of the American Bible Society.

Provo is a city of beauty and righteousness. It has good hotel accommodations, and in addition to the members of the mission, it is expected that there will be a large attendance of the laymen of the church as Bishop Quayle has asked each church to send a delegate that there might be a laymen's conference.

There will be two more Sundays until conference and there will be services in Ogden, both morning and evening and an effort is being made to arrange special programs of music, that the services may be especially attractive and helpful. The program for the 7th is as follows:

At the Morning Service.
Solo, "In the Secret of His Presence," Mr. J. W. Ramey.

At the Evening Service.
Pipe organ, voluntary, "Prelude."

REGAIN or retain your health by following the "SANITARIUM DIET SYSTEM," which embraces fruits, grains, nuts, vegetables, and pure dairy products, excluding all rich, greasy and unnatural dishes. We have as follows:

- 1-6 lb. can Vegetable Cooking Oil \$1.10
- 1-Can Nut Loaf 25c
- 1-Can Nut Sero 25c
- 1-Can Baked Beans 15c
- 1-Can Nut Butter 15c
- 1-Pkg. Graham Crackers 10c
- 1-Pkg. Cereal Blend for Coffee 10c
- 1-Pkg. Granola, Ready to Serve 10c
- 1-Pkg. Crystal Wheat 10c

Selection by the male quartette.
Postlude (selected), Miss Laird.

YOUNGSTERS MUST FACE THE JUDGE

City Attorney DeVine says he is determined to prosecute the boys who created a disturbance on the Bamberger train from Lagoon Friday night. To that end he asked an order from the municipal court yesterday granting a bench warrant to bring them into court for a hearing.

The names of the defendants are L. Hadley, John McClain, John English and L. H. Thompson. The complaint alleges that, after reaching Ogden over the Salt Lake & Ogden road from Lagoon Friday night, the boys created a disturbance by using offensive language in the presence of ladies and in quarrelling and fighting.

They were arrested and taken to the police station, where they were "booked" for disturbing the peace. Not desiring to remain in jail during the night, they furnished bail in the sum of \$10 each. Yesterday when the case was called for trial, the boys did not respond to their names and the bail was forfeited, but, upon the request of City Attorney DeVine, the order forfeiting the bail was immediately rescinded and a bench warrant issued to bring the defendants into court.

The attorney stated to the court that he considered the gravity of the offense such as to warrant bringing the youngsters before the court for trial, and that their bail in the sum of \$10 each should not be accepted in lieu of their presence.

Mr. DeVine states that there is altogether too much hoodlumism being practiced on excursion trains, and that, so far as he is concerned, he is going to put forth his best efforts to check it. Parties who were on the train state that the actions of some of the young men were ridiculous. Vile language was used and rough actions indulged in. Witnesses were on hand at the police court yesterday to testify.

REAL ESTATE TRANSFERS.

Mary Lewis Ring to Anna M. Lewis, for one dollar, part of lot 4, block 29, Plat "C" of Ogden City survey.

Belle James, formerly Belle Brown, to Samuel Sanford, for \$50, part of the southeast quarter of section 17, in township 6, north of range 1 west of Salt Lake Meridian.

William J. Stephens, Jr., and wife to James L. Combe, for \$100, lots 44, 45, 46, 47, 48 in block 31 of Lakeview addition to Ogden.

GET OUT OF THE HEAT.

It's not so hot in Yellowstone Park—only a night's run away; Ogden people are going every day. Wylie of Ice under Reed hotel. Phones 76.

TWO MORE CASES OF SMALLPOX

M. J. Healy of 114 Twenty-seventh street, returned from Lucin Thursday night feeling ill and Friday he and one of his younger daughters were quarantined for smallpox by the health officers.

It will be remembered that only a few days ago Miss Belle Healy, daughter of Mr. Healy, was released from quarantine, under which she had been kept at home three weeks, and she was to return to Evanston, Wyoming, to resume her position as stenographer for the railroad company. Mr. Healy had been away from home during the time of the quarantine and it was thought that he would escape the disease. It appears that he contracted the disease at the time of the exposure when his daughter came home from Evanston. One of the younger girls has also taken the disease, says Sanitary Inspector Poulter, and the home is again under quarantine.
